## ENLISTS FOR LIFE IN CUPID'S RANKS

(From Thursday's Daily)  
Harry Marshall will soon enter the army as a benedict, his marriage taking place yesterday afternoon to Miss Katie Heiser, Rev. Dean Hamilton, pastor of the Baptist church performing the ceremony.

The event attracted a very large number of relatives and friends of the principals, both enjoying very much popularity in this city. The bride is a daughter of Mrs. George Heiser, and is a young lady of prepossessing personality, while the groom is favorably known as a fireman of the S. F. & P. out of this city, who has made many friends during his residence.

Mr. and Mrs. Marshall left for Los Angeles, on a brief honeymoon. After their return in a few days the groom anticipates that he will be called upon to go into the army unless the exemption board will be kindly inclined toward considering his duties as necessary to keep him at home and in the cab.

## NEGRO JAILED FOR FAILING TO REGISTER

(From Saturday's Daily)  
George Taylor, colored, of Clarkdale, is in the county jail, a confessed slacker.

He is the first man to be arrested in Yavapai county for failure to register on June 5th. Taylor came to Prescott yesterday and let loose the remark that he hadn't registered. Some one told him that if he didn't hop up to the local board and see about it, he would be ordered shot at sunrise, or something.

Taylor proceeded to the office of the board, and was there sent by Sheriff Young to the county jail, where he was detained.

Taylor's case will go to the United States attorney. It is the intention of the board to take him before United States Commissioner F. L. Hawthorn on his return, and secure a commitment.

## WOMAN WIZARD SUCCESSFUL IN OIL VENTURE

### MRS. J. P. WALDRON, WELL KNOWN IN THIS SECTION DIRECTS OPERATIONS OF DIVIDEND-PAYING COMPANY IN WYOMING.

(From Sunday's Daily.)  
Mrs. J. P. Waldron, wife of the president of the Montezuma Mining Co., has concluded an inspection of the holdings near Crown King, and returned to Douglas, Wyoming, where she is president of an oil operating company, which is producing and paying large dividends monthly. The success of this latter undertaking is due to her efforts, in which she assumed sole charge in organizing and later in incorporating the company and floating the first block of stock at the low price of one cent a share.

Exploration, with the initial fund mainly provided by Mrs. Waldron from her private resources, proved successful in encountering the oil sand strata, and immediately the stock advanced. It is freely admitted by investors that the persistency, knowledge of mining and her personal attention given to the management of the property proved the wisdom of Mrs. Waldron, and the outcome is that today she has been offered and has refused \$1. per share for her stock, which reaches to over \$100,000.

### FARM ADVISOR GIVES REVIEW OF HIS WORK

(From Wednesday's Daily.)  
Following is a summary of emergency food work done in Yavapai county by County Agricultural Agent George W. Scheerer, from June 1 to July 1, 1917:

This being the first month of county agricultural agent work in Yavapai it was necessary to spend considerable time in getting acquainted with the farmers, the farming districts, and the different types of agriculture found in the county.

I traveled 1,828 miles through the most thickly settled districts and made an attempt to meet all the farmers possible and talk with them. A survey of the county will soon be completed as I have just finished a mailing list for the farmers and ranchers. This will be used to mail each man blanks to be filled out on crops, livestock, machinery on hand and machinery needed, poultry and bees, and a labor sheet. These sheets are gone to press now and will be mailed as soon as finished.

Seven meetings have been attended including farmers' meetings, chamber of commerce, Boys' and Girls' Clubs, etc.

In this connection I have successfully organized one farmers' bureau and two Boys' and Girls' Clubs, and arranged for a silo demonstration for July 20th.

Everywhere I have been I have talked increased production and have advised the planting of beans and other appropriate crops.

Two ranchers have been supplied with information on tractors who contemplate purchasing.

I found demands for extra labor but was unable to help to supply any since there is at this time no extra labor to be had.

Have given information to Chino valley dairymen on how to get their milk to the market without souring as I found that they were having trouble.

Have been able to help save crops in a good many instances by supplying farmers with information on how to fight pests, such as prairie dogs, ground squirrels, gophers, codling moths, bean bugs, aphids, etc.

Two pure bred sires will be or have been purchased through my influence. I have been able to carry some of the results of experiments from the Prescott dry farm to the farmers. Increased cultivation for destruction of weeds and conservation of moisture has been strongly advocated with evidence of farmers acting upon such advice.

Very truly yours,  
GEORGE W. SCHEERER,  
County Agricultural Agent,  
Yavapai County.

For quick and artistic job work, the Journal-Miner is the place.

## 34 MOLOKANAS REAPPORTIONING HERE FOR A YEAR TERM OF ARIZONA'S WAR QUOTAS

### RUSSIANS MARCH SINGING UP CORTEZ AND ARE ENGULFED BY THE COUNTY JAIL; SLACKERS IN FOR A YEAR.

(From Thursday's Daily)  
Chanting a not unmusical hymn in their own language, 34 Russians, convicted in the Federal court at Phoenix yesterday of evading the registration law, marched up Cortez street to their future home in the county jail last night. They bore suitcases, rolls of bedding and sacks, some wore smocks of white, others were clad more like Americans, and few of them were without tawney or dark beards.

U. S. Marshal Jopie Dillon and half a dozen deputies never had less trouble with a batch of prisoners. All were docile, and except for the odd marching song they emitted as they progressed up the street, they made no demonstration.

The sheriff's office here faces a heartbreaking year. These men are not permitted to eat meat or any food prepared by non-members of the Molokanas, the religious sect, adherence to which got them in this scrape. If they eat, it will be food of their own cooking, and it is likely that they will have to be given cooking utensils in the jail. The bare upper tier of the cell room was prepared for them last night.

The men were marshaled in the outer room and searched. They blithely turned over their small purses and pocket hardware, and entered the scene of their year's incarceration. After he had started toward the door, one of the men returned and produced a safety razor.

Disciples of a gentle creed, these men refused to register, and their refusal led to so much rioting and disturbance in Phoenix that they remind one of the old saying—"having peace if you have to fight for it."

### FIND SKELETON ON CAMPBELL RANCHO

(From Wednesday's Daily.)  
It was an unexpected tenant that Mrs. Joe Campbell discovered on the Rio Verde ranch five days ago. He had evidently been there for a good long time, but hadn't paid any rent or nothing. He didn't even let the owners of the ranch know he was occupying part of their ground.

Mrs. Campbell noticed a round white thing sticking out of the ground, where the recent heavy rains had washed down a slope near the trail from the house to the well. She got her pick and began prospecting, and found a skull. Yessie—a large, big white dead skull.

A little thing like the dome of a person of great age did not scare the daring woman, and she proceeded to explore, expecting to find secondary enrichment at depth. Below the skull place, she ran across a lot of shoulder things, arm and leg bones, but no ribs! Think or it—no ribs! Her theory is that this old heathen was a polygamist and had used up all his ribs for wives. He had 29 teeth, though, and every one was as sound as a new dollar, proving that when men didn't have dentists, they—but this will merely provoke discussion. It might have been the food they ate in those days.

Mr. and Mrs. Campbell have turned over possession of the Rio Verde to the new owner, and are now located in town. Mrs. Campbell will go East shortly for a visit with her people.

### MILITARY OFFICER WRITES FROM FRANCE

(From Saturday's Daily)  
There are many in Prescott who will be interested to know that Captain Kennison, a military officer who is well known here, having been stationed at Fort Whipple for many years, is now on duty in France, being with the second expeditionary force which reached a certain port recently. Harry Brisley is in receipt of a letter from Mrs. Kennison at Charleston, Mo., where the family is residing. The message from abroad is subjected to the customary rules of being censored. Captain Kennison was stationed on the border at Columbus, N. M., and is a close friend of General Pershing, being a thoroughly trained officer.

### SEWINDER SNAKE BITE WAS SERIOUS

(From Wednesday's Daily.)  
Albert Harris, a miner well known in this section, was bitten by a snake of the sidewinder species at a camp in Southern Mohave county over two weeks ago, and is now in a Los Angeles hospital slowly recovering.

At the time Harris and other miners were resting under a cottonwood tree in a gulch, and the reptile came along noiselessly in the sand without any one there being aware of its presence. He was struck twice on the calf of the right leg, and the first treatment he received was the following afternoon at Needles. The bite of this variety of snake is considered far more dangerous than the rattler, and the escape of Mr. Harris from death is considered remarkable.
